

God, the Democrats are after the seniors.

Seniors of America, in 1965, when Medicare was passed, only 22 Republicans voted for it; probably none will vote for health care reform now. Remember that at the polls.

#### JOBS AND HEALTH CARE

(Mr. MCCARTHY of California asked and was given permission to address the House for 1 minute.)

Mr. MCCARTHY of California. Mr. Speaker, as a former small business owner, I know that success is measured by results. If you don't achieve results, you have to rethink your approach to make your business successful. The same cannot be said of this Congress. Bipartisan stimulus ideas to help small businesses grow jobs were ignored. Instead, a \$1 trillion spending bill was crafted behind closed doors with the stated purpose to create 3.5 million jobs. The results? We now find ourselves with an unemployment rate not seen in over 25 years. In my home State of California alone, the White House predicted that 396,000 jobs would be created. Well, 336,000 jobs, and counting, have been lost. So where are the jobs?

Now in addressing health care, the Democratic majority is again crafting a bill behind closed doors. Can we expect the same lack of results? Likely. Because how do you save money for American families and small businesses by raising taxes and once again ignoring bipartisan ideas, like lawsuit abuse reform?

Our families deserve better; our small businesses deserve better; America deserves better.

#### HEALTH CARE REFORM

(Mr. PIERLUISI asked and was given permission to address the House for 1 minute.)

Mr. PIERLUISI. Mr. Speaker, I rise in strong support of Congress' efforts to reform our Nation's health care system. Too many Americans have no health insurance or are a job loss away from losing their insurance, and reform will give them access to secure, affordable coverage.

The House bill will also benefit the vast majority of Americans who already have insurance. Your insurance company will no longer be able to deny you coverage or raise your rates because of a preexisting condition. Your insurance company will no longer be able to drop or reduce your coverage when you get sick.

Mr. Speaker, I represent nearly 4 million U.S. citizens from Puerto Rico. My fellow delegates from the territories and I have fought hard to make certain that the House bill is fair to our constituents who are no less American than their fellow citizens in the States and are no less deserving of care.

Thanks to the determined efforts of our leadership, I am confident that the

House bill will ensure that quality health coverage will be available for all Americans, whatever their financial means and wherever they happen to reside.

#### GOVERNMENT TAKEOVER SLASHES MEDICARE FUNDING

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, what does a government takeover of health care mean for seniors? It's simple. According to the Congressional Budget Office, the Democrats' health care and tax increase bill slashes funding for Medicare Advantage plans used by millions of seniors across the country.

All told, the Democrat plan cuts \$162 billion from Medicare Advantage. That will directly affect the 40,000 seniors in my mostly rural North Carolina district who enjoy Medicare Advantage plans. With such huge cuts, Medicare Advantage plans are expected to disappear, limiting seniors' choices and causing real hardships for seniors in rural areas who simply don't have many options.

So much for the President's promise that "if you like your current plan, you can keep it." Sure, this promise is true, unless of course you're one of the millions who will lose their plan.

The bottom line is this one-size-fits-all government-run plan and tax increase combination is bad news for America's seniors.

#### HEALTH REFORM

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, I am very encouraged by the progress being made on health insurance reform in this Congress. Where we are in this health care debate is truly historic. However, we're not there yet, and we cannot let this opportunity pass us by.

For millions of people without insurance, health reform will mean access to affordable, quality coverage. But what will it mean for people who already have coverage? For them, health reform will create stronger consumer protections that ensure coverage isn't dropped or scaled back when they get sick. It will ensure a lower out-of-pocket cost to make coverage more affordable, and it will provide greater access to routine checkups and preventive care. It will ensure real competition and transparency in the health insurance market so the American people are getting the best plans at an affordable price.

In short, health reform will mean security and stability for millions of Americans, and we should not make them wait any longer for these commonsense reforms. The time to act is now. This is a historic opportunity for the American people, and this Congress cannot let them down.

#### DEMOCRAT HEALTH CARE PROPOSAL HARMS SENIORS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, Democrats are proposing \$163 billion in cuts to the Medicare Advantage program as part of their government takeover of health care. A crucial program, Medicare Advantage offers seniors greater choice and affordability, the primary goal of health insurance reform. But Democrats want to cut funding for this program.

Squeezing senior citizens out of their current health insurance plan in order to impose new taxes and unworkable government mandates onto American families is not the way to reform health insurance. We need targeted reforms that will expand opportunities to get insurance, like association health plans and purchasing insurance across State lines.

The Republican Study Committee, led by Dr. TOM PRICE, has offered H.R. 3400 to promote affordability and accessibility for American families and small businesses.

The American people have a choice on how we reform. We do not need a big government takeover which will destroy 1.6 million jobs, according to the NFIB, the voice of small business.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

#### HOUSEHOLD VIOLENCE

(Mr. QUIGLEY asked and was given permission to address the House for 1 minute.)

Mr. QUIGLEY. Mr. Speaker, October is Domestic Violence Awareness Month, and now, more than ever, it is time to draw attention to household violence that results in more than 2 million injuries and 1,200 deaths among women each year.

Estimates of assaults on women by partners range from approximately 2 million to 4 million annually. Sadly, we have no real idea of how many incidents of violence actually occur each year because so many go unreported.

Those unreported incidents are the reason Domestic Violence Awareness Month is so vital. Only when we are no longer afraid to speak out about domestic violence will we empower those who currently suffer in silence. In my State of Illinois alone, there were 114,921 reported cases of domestic violence in 2006.

It is for those thousands of women and the countless others who suffer silently that I speak today. It is for those women that I encourage my colleagues to pass House Resolution 817, which supports the goals and ideals of National Domestic Violence Awareness Month.
